

Una lunga storia fatta di passione che dura
da oltre 45 anni

A long passion history that last since more
than 45 years

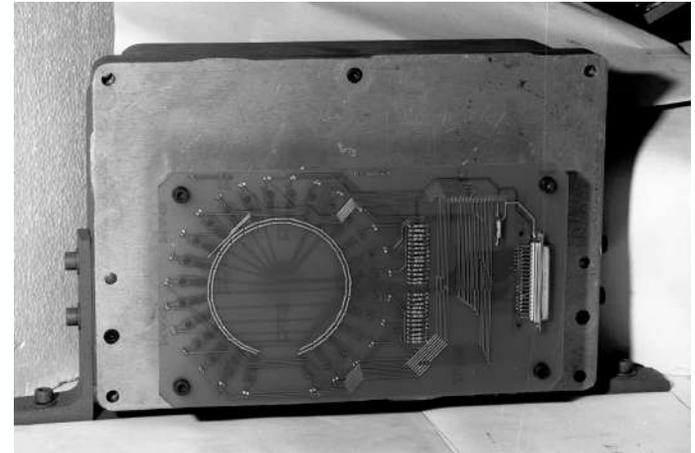

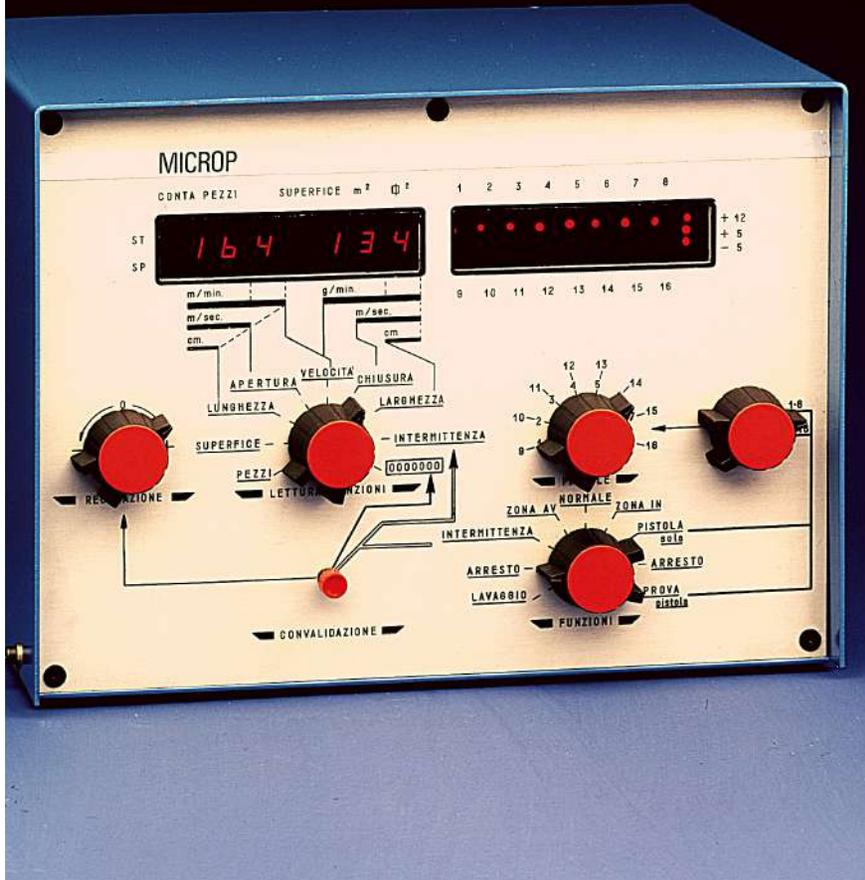

1976

primo economizzatore ad ultrasuoni
first ultrasounds economizer

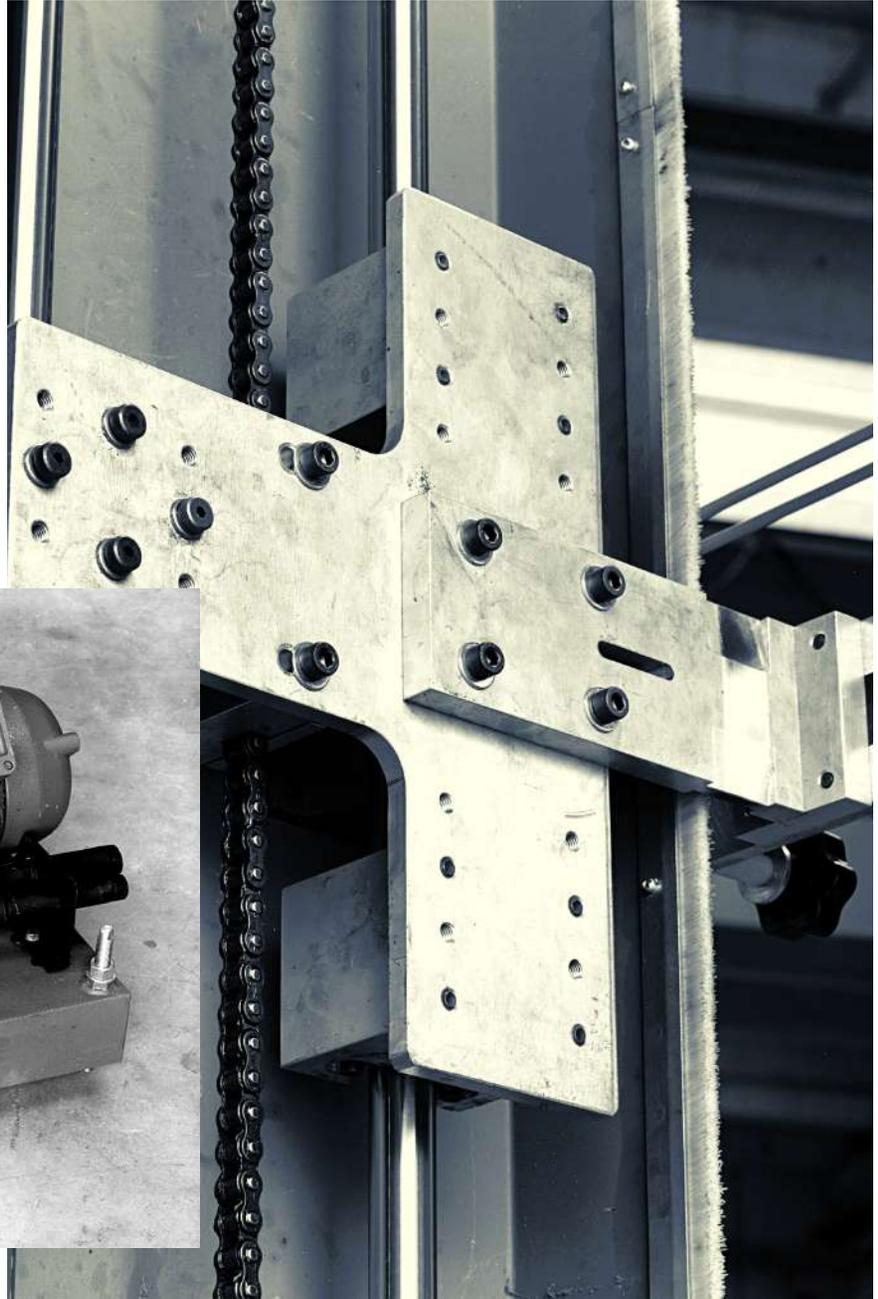

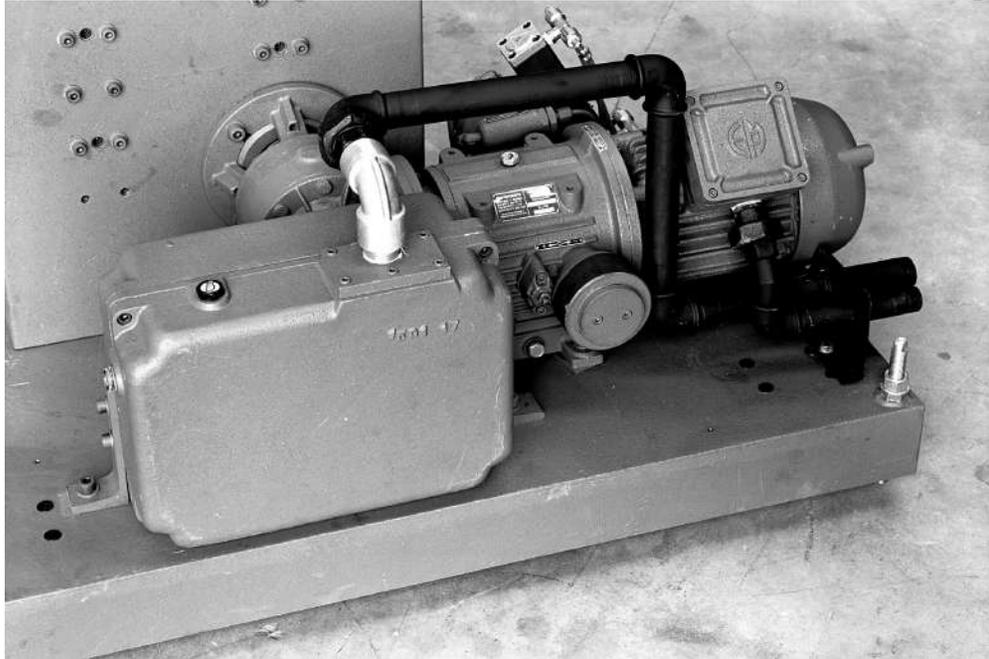

1984

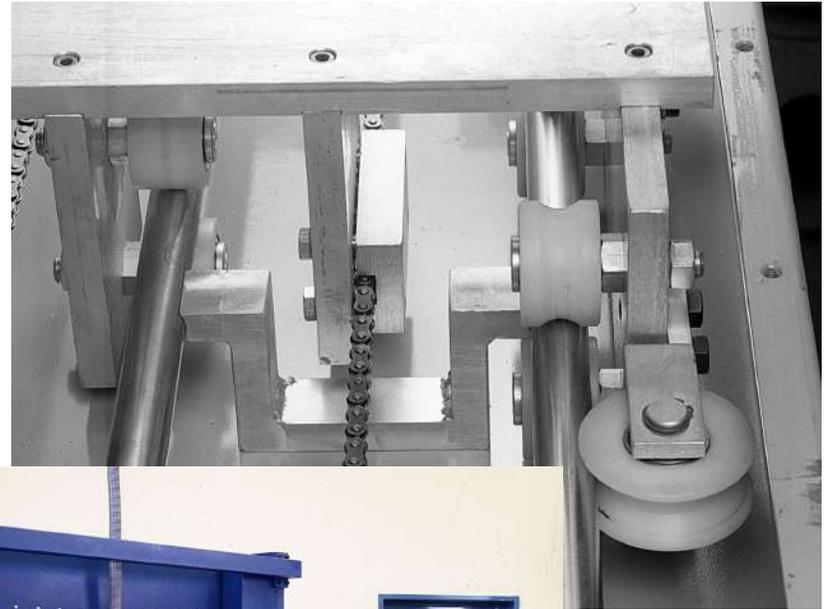

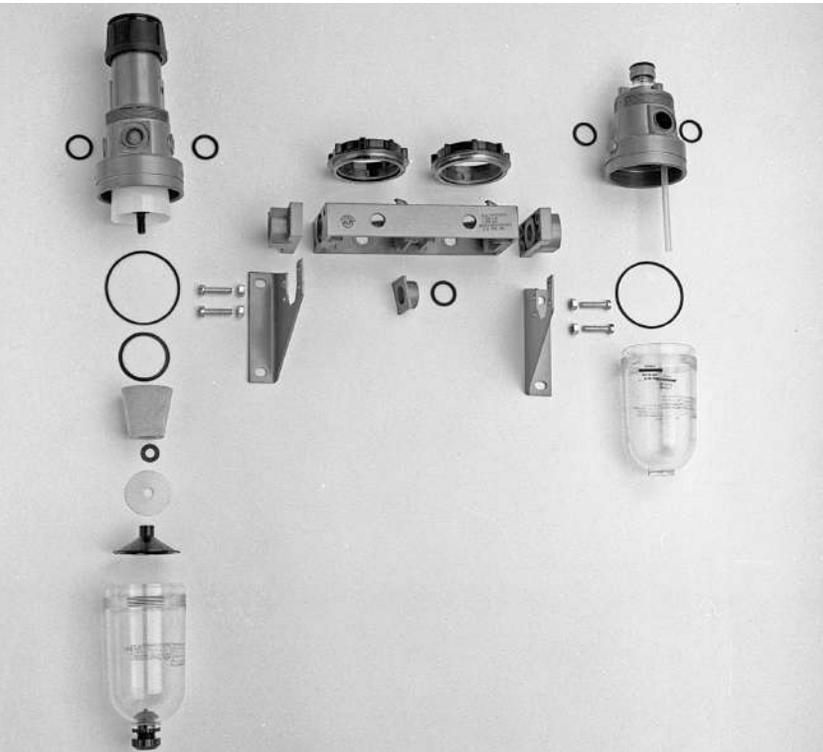

primo economizzatore a microprocessore
 first microprocessor economizer

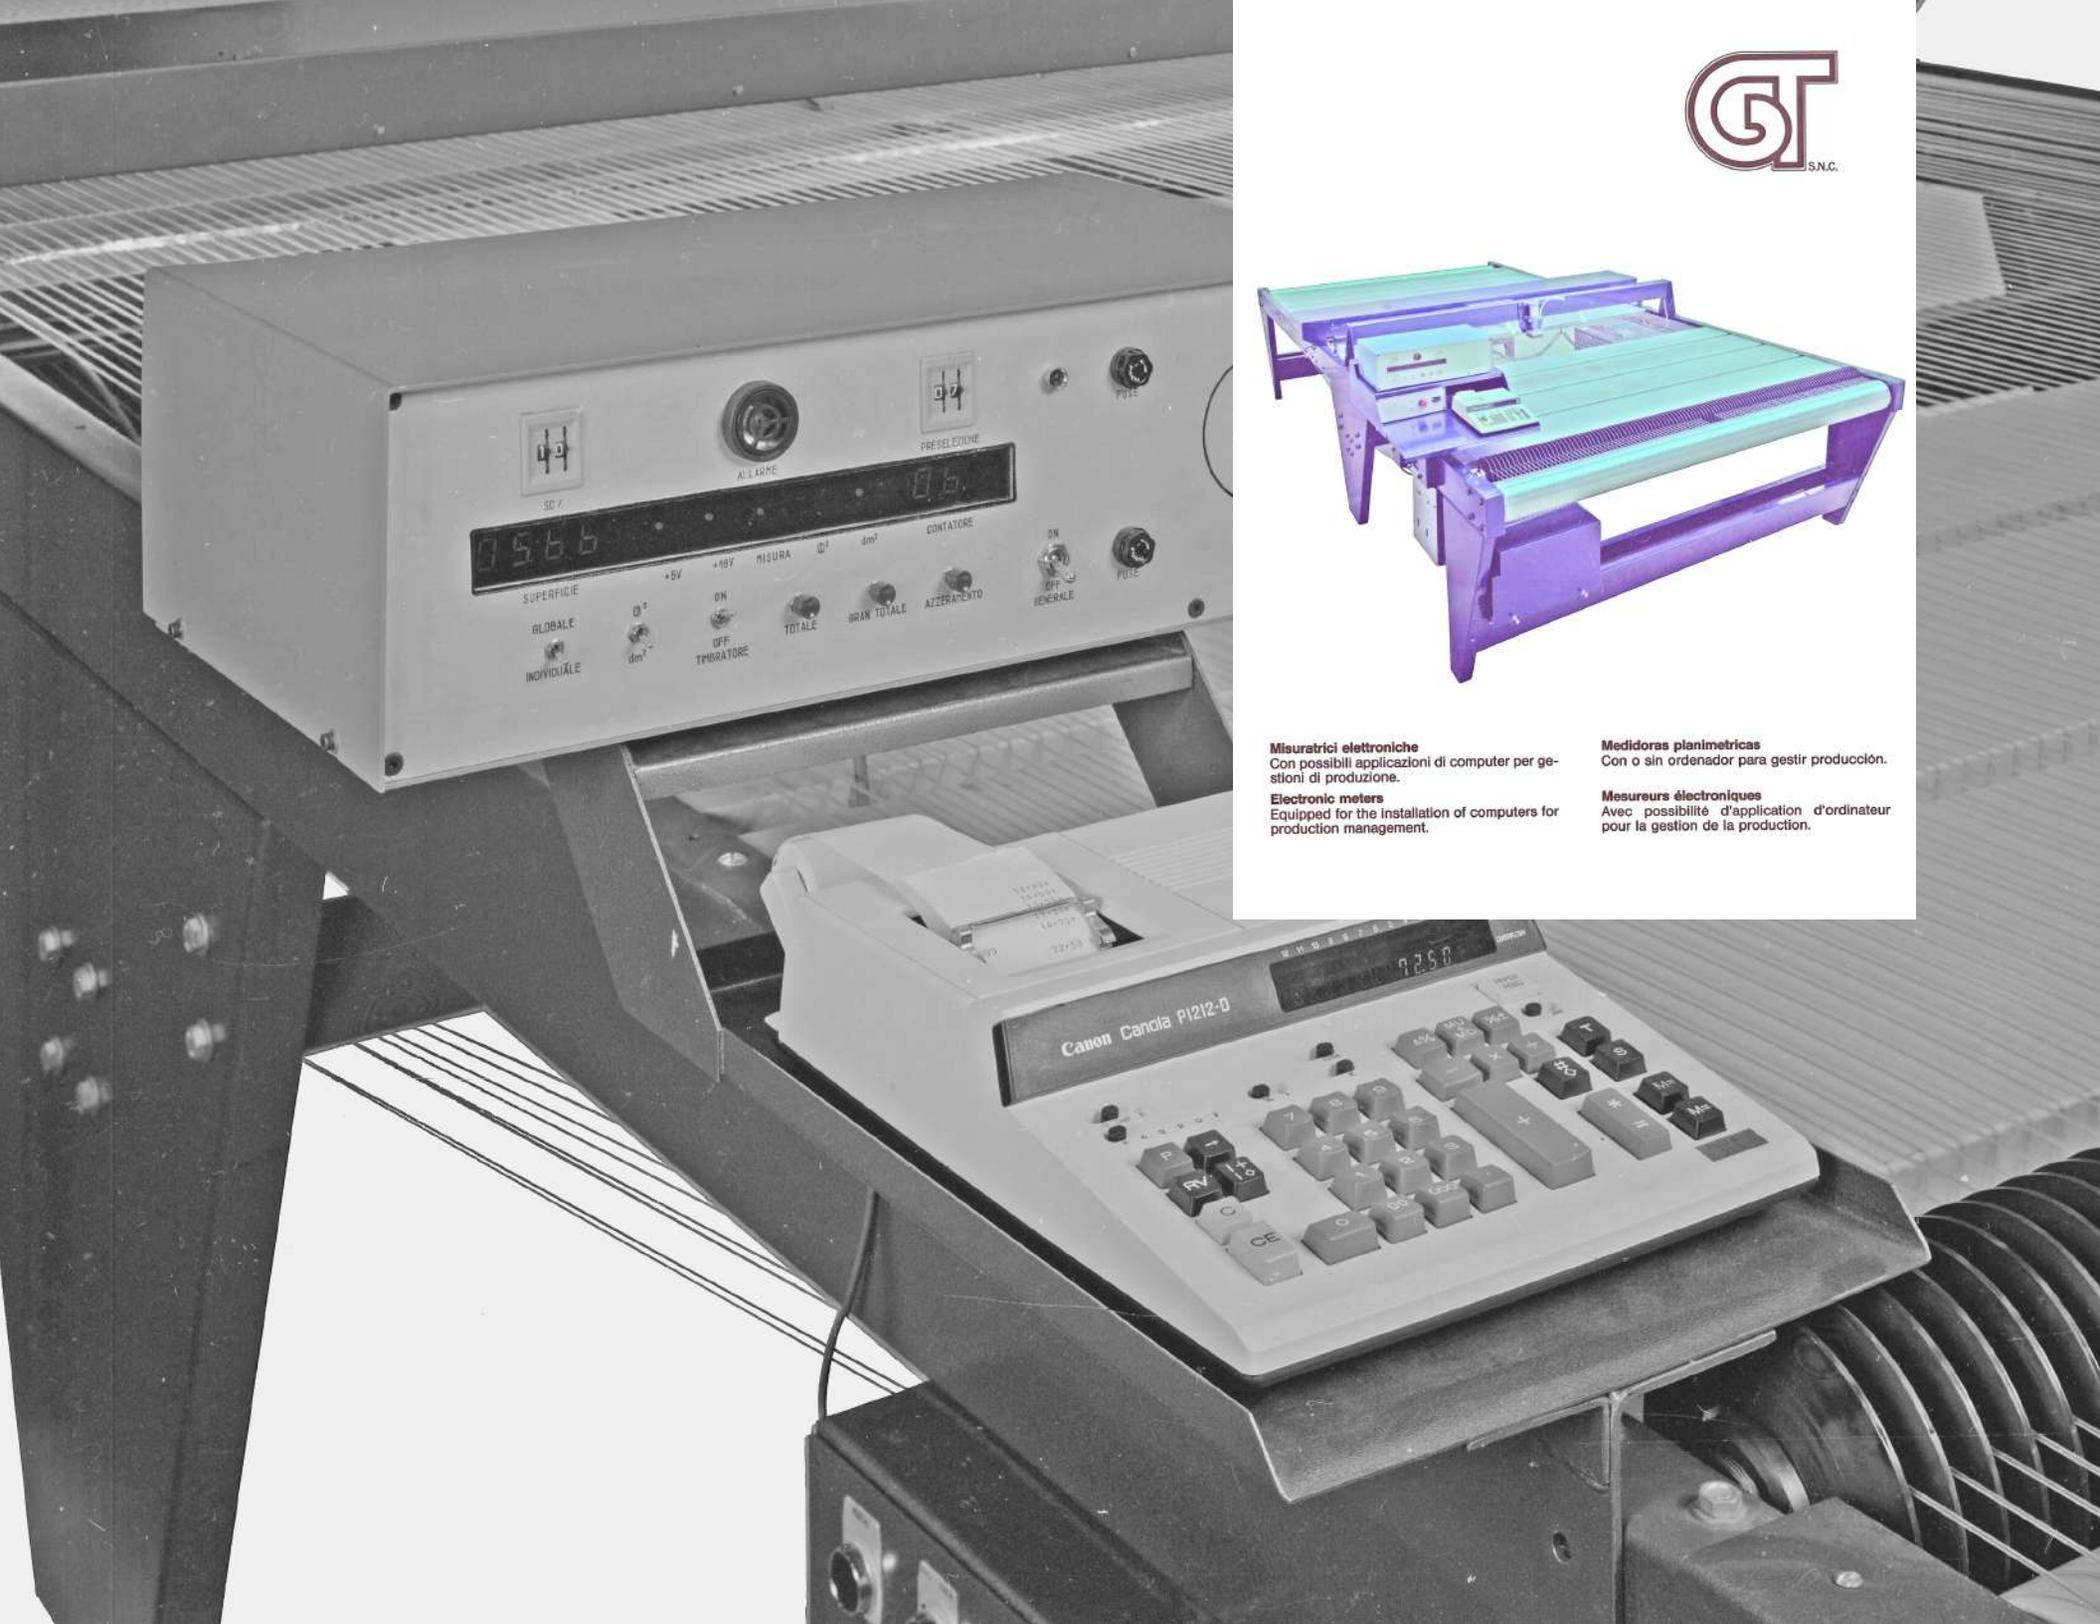

Misuratrici elettroniche
Con possibili applicazioni di computer per gestioni di produzione.

Electronic meters
Equipped for the installation of computers for production management.

Medidoras planimetricas
Con o sin ordenador para gestionar producción.

Measures électroniques
Avec possibilité d'application d'ordinateur pour la gestion de la production.

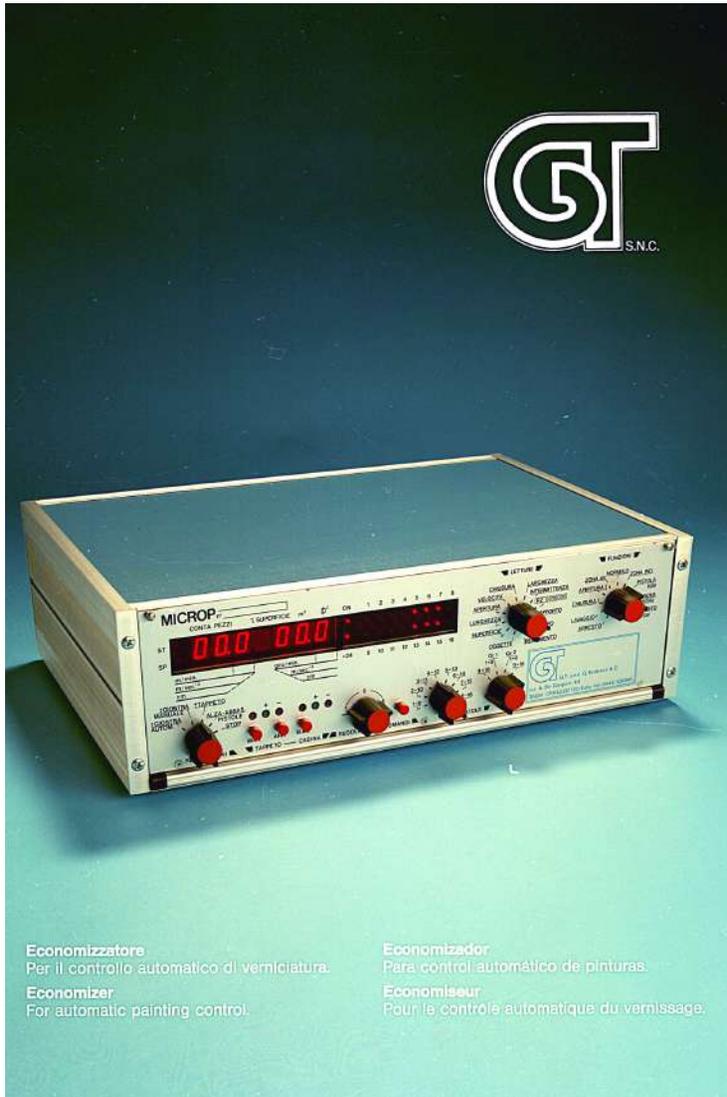

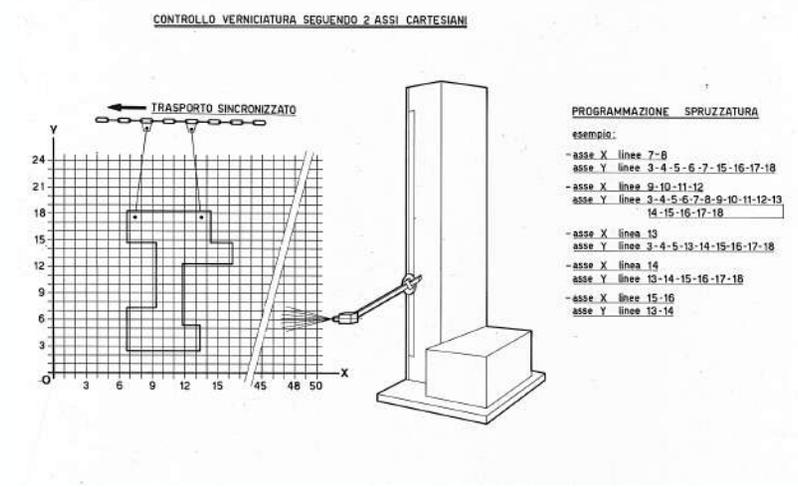

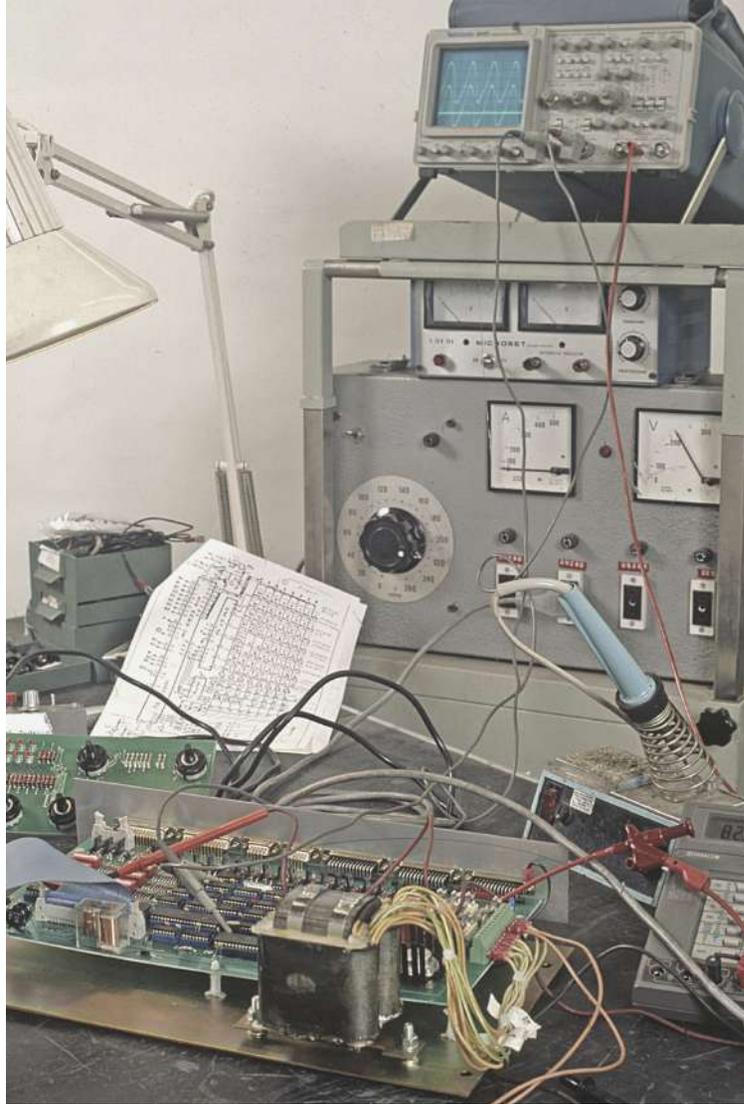

1986

economizzatore "mircop"- oltre 1000 modelli venduti
"microp" economizer - more than 100 unit sold

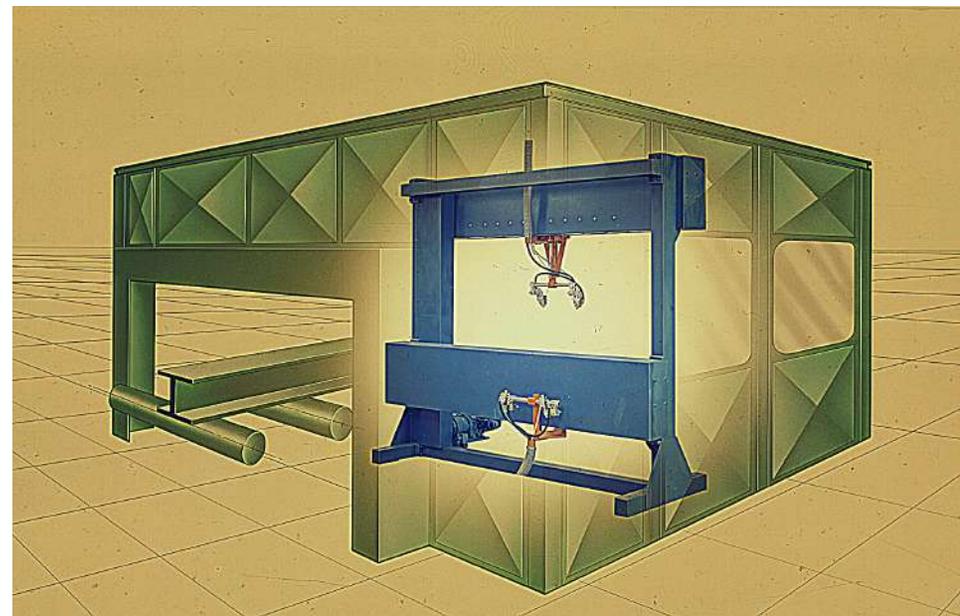

"jetto"- primo controllore per spruzzatura elettrostatica
"jetto" - first electrostatic spray controller

1988

GT PISTOLA VOLUMETRICA

PISTOLA VOLUMETRICA
(0,2 + 0,8 Atm. aria polverizzazione)

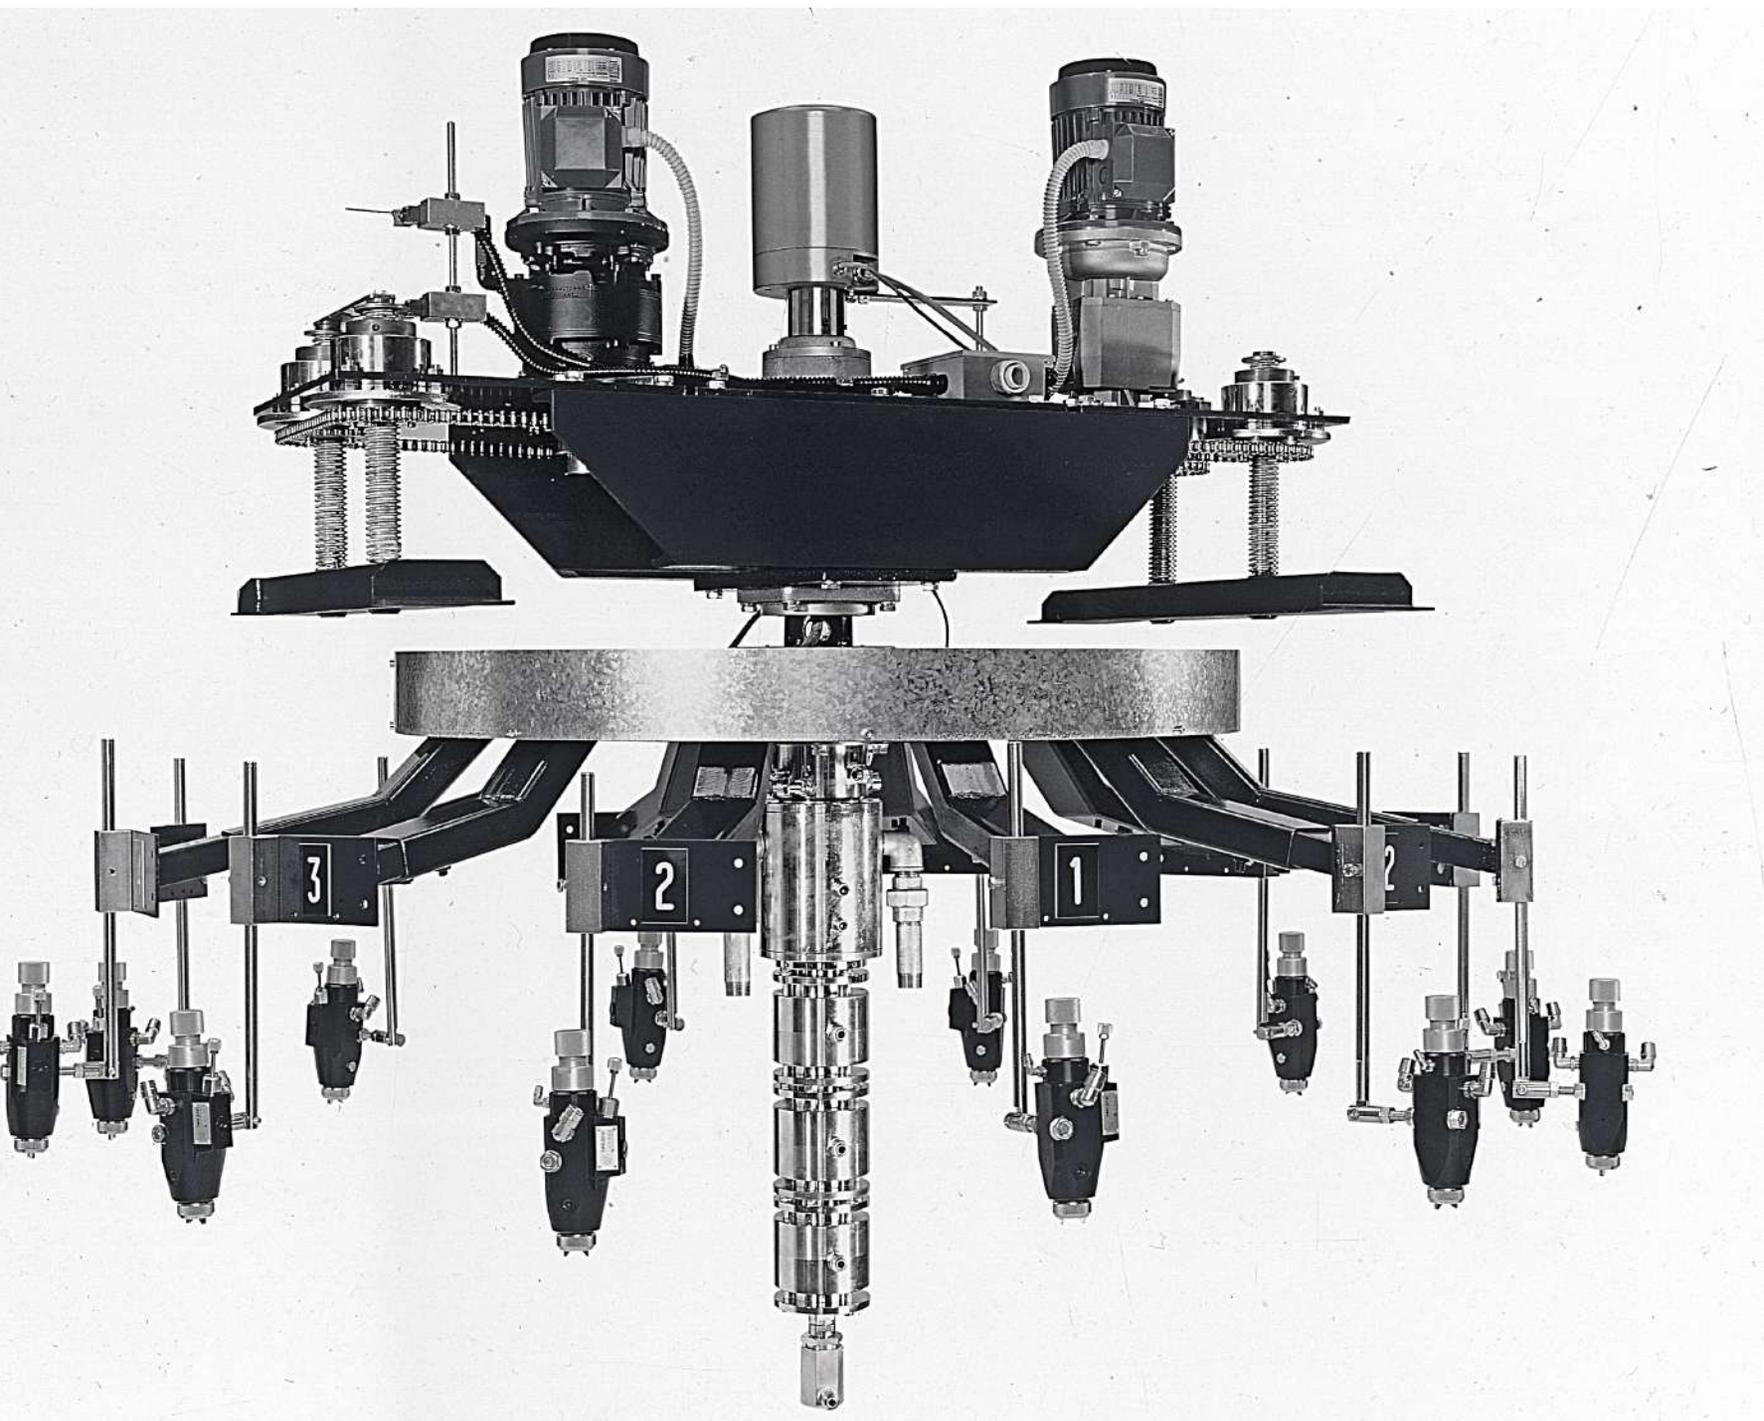

VOLUMETRIC GUN
(0,2 + 0,8 Atm. pulverizing air)

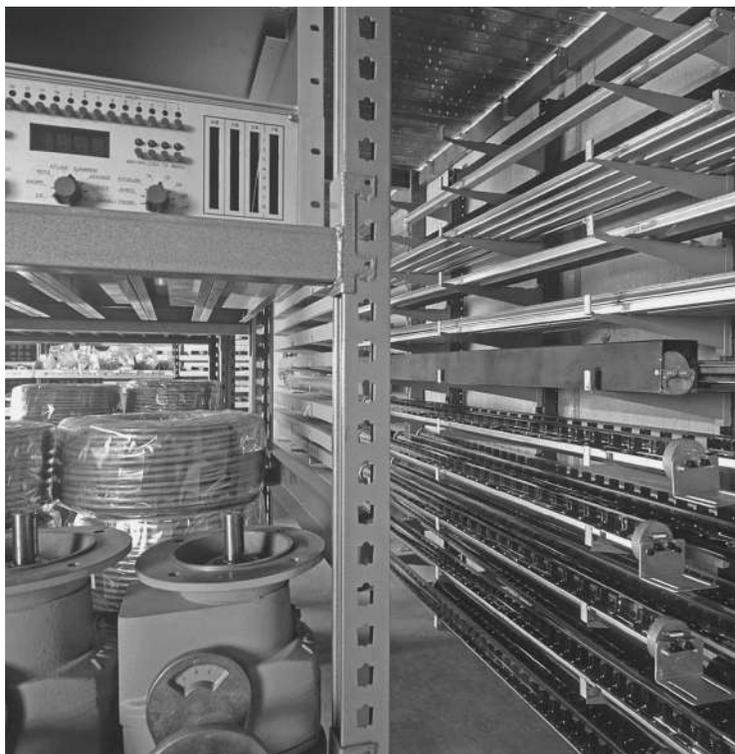

**VOLUMETRISCHE
ZERSTÄUBERPISTOLE**
(0,2 + 0,8 Atm. Luft Zerstäubung)

PISTOLA VOLUMETRICA
(0,2 + 0,8 Atm. aire pulverizado)

1994

prima pistola HVLP "GTV1"
first HVLP gun "GTV1"

1996

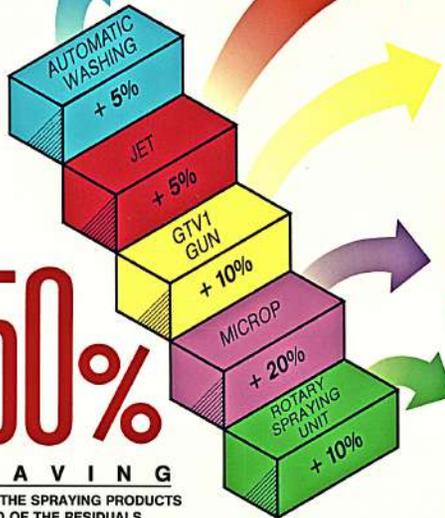

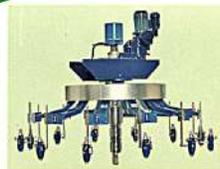

economizzatore "cometa"
"cometa" economizer

GET THE DOUBLE BY SAVING THE HALF

BY PURCHASING THE NEW
EXTRAORDINARY "GT" SPRAYING
SYSTEM (AUTOMATIC WASHING +
JET + GTV1 GUN + MICROP +
ROTARY SPRAYING UNIT)

50%

SAVING
OF THE SPRAYING PRODUCTS
AND OF THE RESIDUALS
TO BE PURIFIED

1996

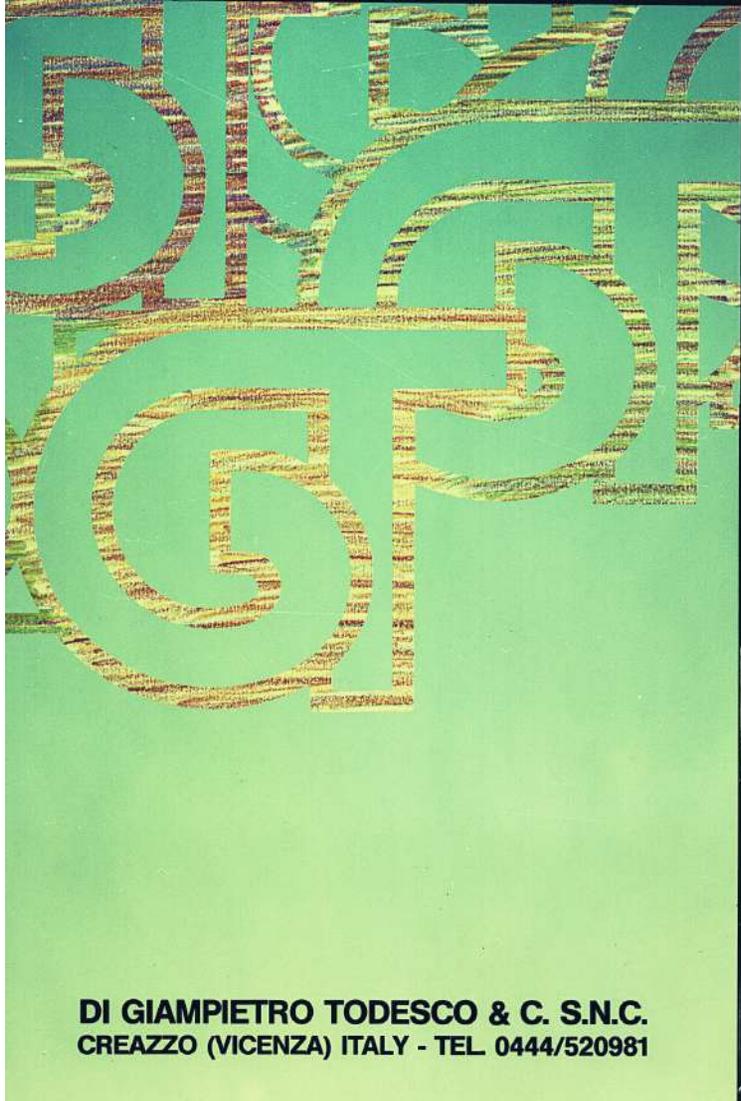

linee complete ad alto risparmio energetico
high saving full lines

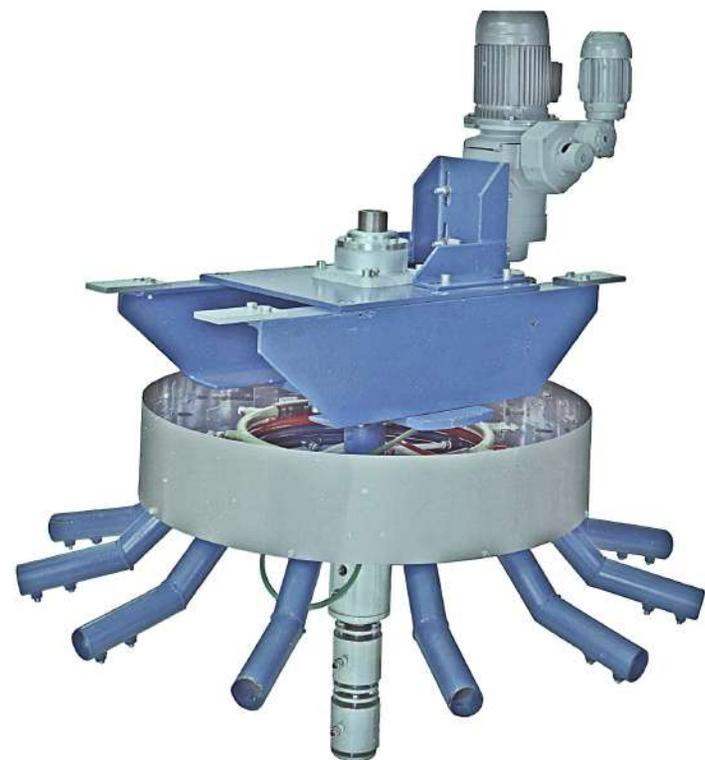

**GIOSTRA ROTATIVA
PER SPRUZZATURA**

ROTARY SPRAYING UNIT
**MUÑÓN ROTATIVO
PARA VAPORIZAR**

DI GIAMPIETRO TODESCO & C. S.N.C.
CREAZZO (VICENZA) ITALY - TEL. 0444/520981

Giostra rotativa

Applicabile a qualsiasi cabina esistente.

Rotary unit

Can be installed in any existing spray chamber.

Muñon rotativo

Para cualquier tipo de cabina.

Unité rotative

Peut être appliquée à une cabine existante.

AIM HIGHER

Forse non siete abituati a vedere la tecnologia in un impianto di verniciatura industriale. **Guardate meglio.**

Adattando la nostra tecnologia al vostro impianto produttivo, riusciamo a creare valore e risparmio:

- riduzione della quantità di colore dispersa in aria
- riduzione dei costi energetici e dell'inquinamento
- riduzione della manutenzione fino all'80%
- aumento dell'efficienza produttiva

Tutto questo vuol dire un risparmio economico concreto, una qualità superiore, un'efficienza produttiva mai vista prima.

Questa è tecnologia. Questa è innovazione.

Vantaggi molto più profondi di una mano di colore.

2008

pistola HVLP di nuova generazione HV-02
HV-02 next generation HVLP gun

2015

Sistema Innover
Innover system

INNOVER

2015

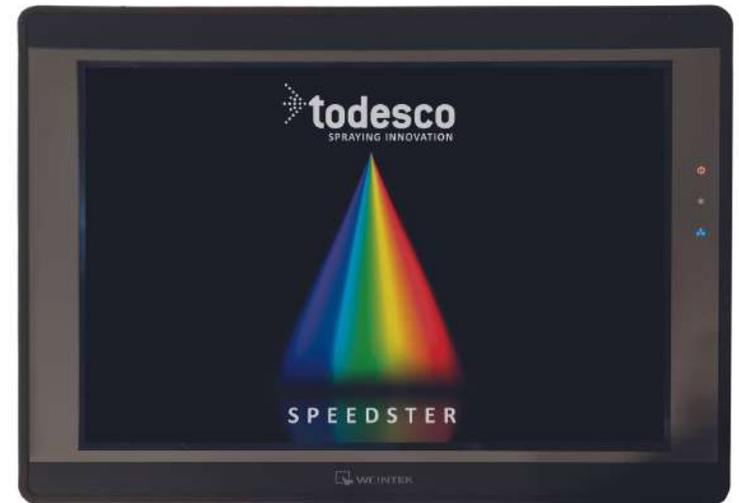

HV-03 pistola super HVLP
HV-03 super HVLP gun

2019

macchina controllo colore "speedster"
color matching machine "speedster"

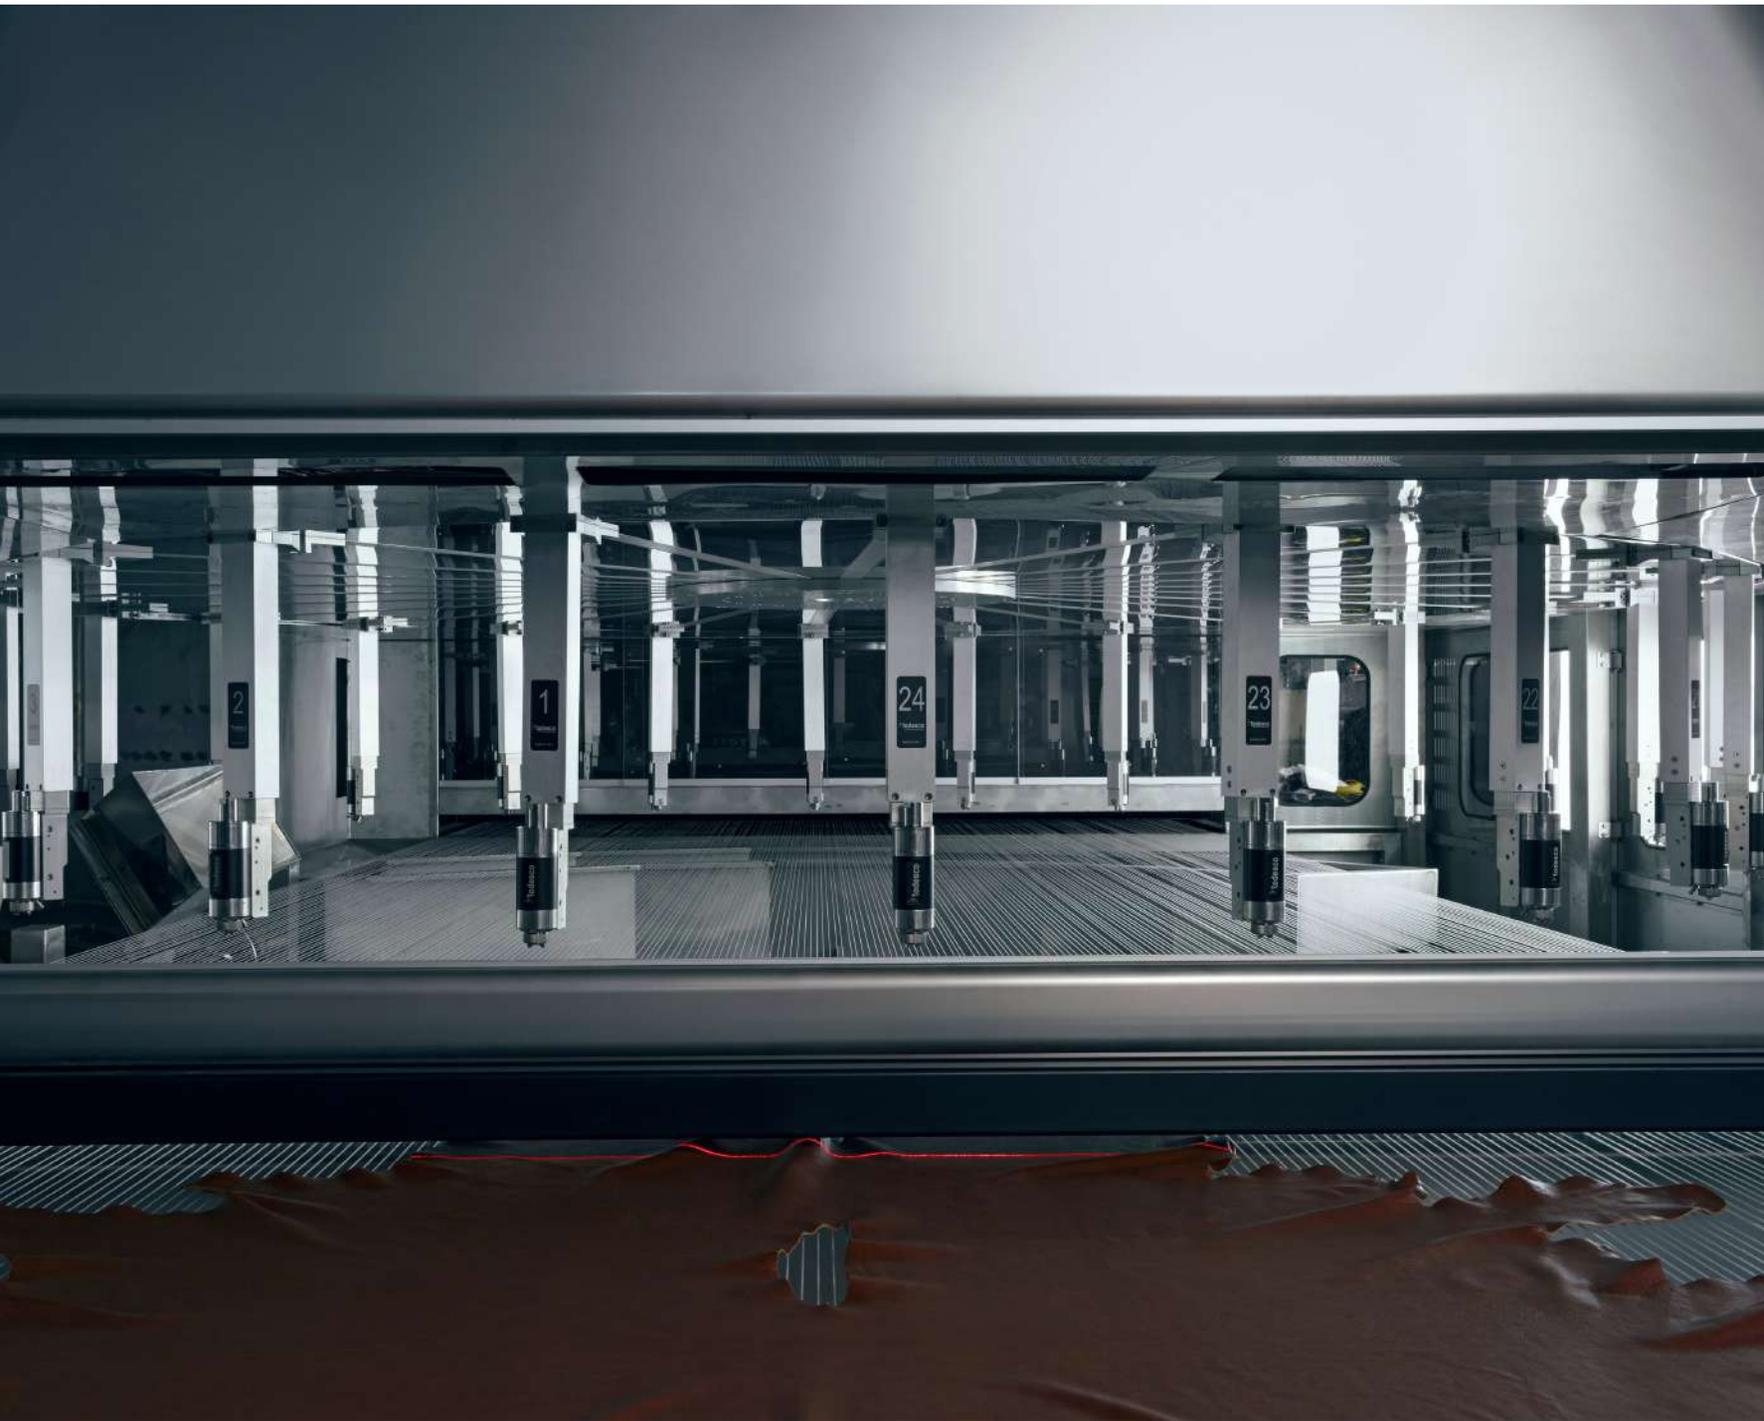

2021

sistema di analisi dati
data analytics system

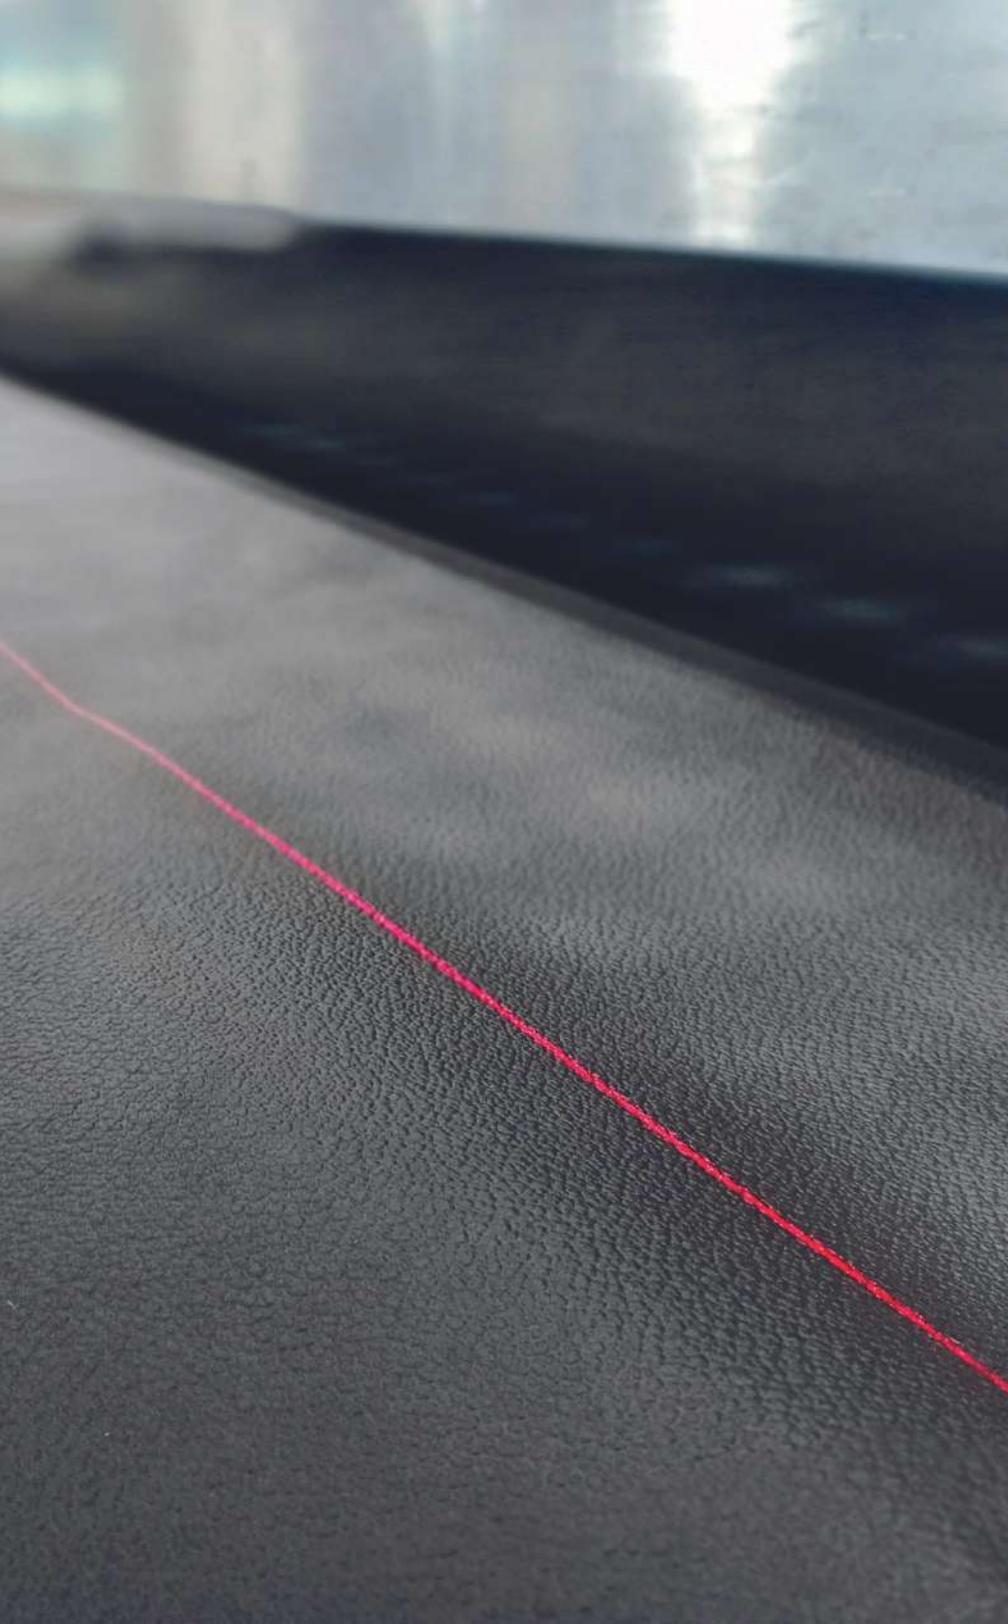

Sistemi di depurazione DEP

Dust abatement DEP

**Sistema di visione ed economizzatore
Vision**

Screening and chemical economizer Vision
