

Todesco spray gun retrofits

Enhanced quality, reduced consumption, increased productivity

With Todesco spray guns, you'll improve leather finishing, minimize product waste, and boost the efficiency of your lines. Todesco guns are ideal for finishing leather destined for:

Furniture

Automotive

Leather Goods

Footwear

They're perfect for spraying: Water-based products, solvents, anilines, resins, waxes, and top coatings.

Compatible with any booth

Simple and quick installation on any existing spray booth, regardless of make or model.

Immediate setup and centralized control

Simultaneous adjustment of color and air via remote control: faster operations, fewer errors.

Durable and resilient materials

All parts that come into contact with color are made of stainless steel, resistant to the typical chemicals used in tanneries.

Up to 80% reduction in product waste.

Simple maintenance, reduced costs

- » Quick disassembly of tips and nozzles without removing the gun.
- » Easy cleaning, long lifespan.

Real savings, immediate benefits

- » Up to 80% reduction in product waste.
- » Less dirt in the booth and in the dust abatement systems.
- » Lower water consumption = greater environmental respect.

Up to 80% reduction in product waste.

Up to 40% Reduction
in Chemical Product
Consumption

The HV-02 is the only
spray gun with a transfer
efficiency greater than
92%, certified by the
Fraunhofer Institute
(Germany).

Did You Know?

Todesco spray guns are the only ones in the world with a transfer efficiency of >92% certified by the Fraunhofer IPA Institute.
